

# Taking the *Panic* Out of High School Home Education

Home education through high school ... made simple!

**Thursday, May 16th, 2019**

Burnsville, MN

9:30 am – 3:00 pm

Berean Baptist Church

*The best time to learn about homeschooling in high school is before you are doing it!  
This seminar is open to moms of students of all ages!*

**Val Qualley and Mary Mueller** will explain what you absolutely have to know without including unnecessary details that create confusion and leave you feeling overwhelmed! Their methods of record keeping will take between 5 to 12 hours per YEAR, depending on your personal pace! Many previous seminar attendees have successfully used this simple method of record keeping whether their students are going on to college, the military, or vocational training.

**Val** has firsthand experience homeschooling three very different teenagers. Her oldest son is currently a sophomore in college, her middle son is a freshman in college, and her daughter is a junior in high school taking PSEO classes at South Heights. She will share her techniques and show how home schooling through high school can be a positive experience and a blessing!

**Mary** home educated her five children from 1994 to 2014, and all have pursued a wide variety of vocations and educational options. Three are college graduates so far, two have pursued technical vocations, and one has a master's degree. Each of her children presented different educational challenges, and she will show how to successfully handle a wide variety of issues in high school with faith and confidence!

Both ladies have helped many families with transcripts for PSEO and college applications.

## **TOPICS Include:**

**Record Keeping** – What's necessary, what's not?

**Grading** – How to do it efficiently

**Credits** – What are they and how do I assign them?

**Graduation Standards** – Do they apply to homeschoolers?

**Transcripts** – Get a free copy of an Excel-based transcript!

**Pursuing PSEO** -- Post-secondary Education Options

**Handbook includes:** Developing a plan, Summary of PSEO Options, Resources, Class Description examples, and much more!

# Taking the *Panic* Out of High School Home Education
