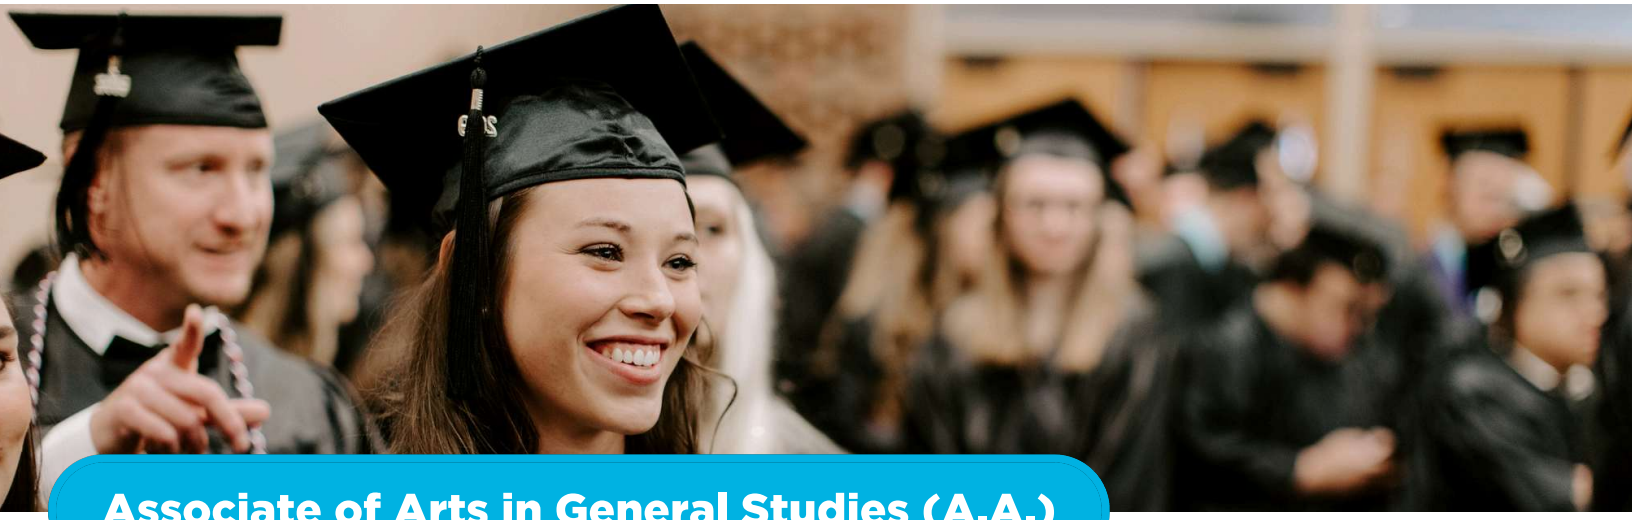
PSEO - AA Degree

CROWN COLLEGE



Associate of Arts in General Studies (A.A.)

Accelerate Your Academic Career

Through the PSEO program, Crown College can help you earn an Associate degree while you are still in high school, providing you with a valuable head start on your education and your employment.

Explore your career options and expand your earning potential before committing to a specific major. Because Crown has the highest level of accreditation, your classes (and possibly your degree) should be accepted almost anywhere.

Crown has developed a list of recommended courses that will help you earn an Associate of Arts (AA) degree during the two years you are enrolled in the PSEO program. This degree opens a pathway to a variety of academic pursuits.

Because the state of MN does not fund the three Bible courses that are required for an AA degree, Crown offers these classes at a reduced cost of $765 for the 26-27 school year (cost may change in subsequent years). Required books will also need to be purchased for these three classes.

START EARLY

- Declare your interest in earning AA degree early! (online interest form)
- Advisor, Emily, will create an Advising Worksheet, similar to the Sample Plan on the back, to map out your coursework and ensure you complete the required 60 credits.
- Students must take 12-15 credits per semester to complete all the required courses in two years.
- Consider taking CLEP or DSST proficiency tests. Students can apply 15 proficiency credits toward an AA degree to lighten the credit load each semester.
